

“Enhancing PHC service delivery outcomes through research”

JOHANNESBURG HEALTH DISTRICT RESEARCH CONFERENCE
28-29 AUG 2024 | WITS SCHOOL OF PUBLIC HEALTH

#JoburgResearch2024

Programme

Day 1

- 07.30 - 08.30 TEA
- 08.30 - 09.00 Opening and Welcome
- 09.00 - 10.00 Plenary 1: “Johannesburg Health District Plan and Research Priorities”
- 10.00 - 12.00 Parallel Sessions a) HAST b) MCWH, c) Miscellaneous Disease and d) PHC Systems
- 12.00 - 13.00 WORKING LUNCH
- 14.00 - 17.00 Parallel Sessions a) HAST b) MCWH, c) Miscellaneous Disease and d) PHC Systems

Day 2

- 07.30 - 08.30 TEA
- 08.30 - 11.00 Plenary 2: Summary of Parallel Discussions
- 11.00 - 12.00 Plenary 3: Academic Research Units in Johannesburg
- 12.00 - 13.00 Awards, Vote of Thanks and Closing

HIV-AIDS, STI, TB & related

1: HIV index testing implementation in the public health system in Gauteng, South Africa [as part of HIV Prevention]

By: Mrs Nolundi Mshweshwe-Pakela, Research Manager from The Aurum Institute

2: Exploring The Social Factors Contributing To HIV Prevalence Amongst African Female Migrants Residing In Hillbrow Johannesburg, South Africa. [as part of HIV Prevention]

By: Mrs Dzunisani Baloyi- Shikwambana, Strategic Information Project Manager from Wits RHI

3: Enhancing PrEP Use, Adherence, and Health Engagements Among Diverse Populations: Insights from Soweto, South Africa [as part of HIV Prevention]

By: Dr. Ndumiso Tshuma, Public Health Specialist from Best Health Solutions

4: Identifying low-risk participants from Region F, Johannesburg for participation in early-stage HIV prevention trials [as part of HIV Prevention]

By: Dr Juliet Rundogo, Research Clinician from WITS RHI

5: Deciphering Dynamics and Risk Perception: Factors Shaping Pre-Exposure Prophylaxis (PrEP) Initiation and Continuation Among Women at Risk in Soweto, South Africa [as part of HIV Prevention]

By: Mr Tshepo Ndhlovu, Public Health Advocate from The Best Health Solutions

6: Empowering Women at Risk: Exploring the Impact of Accountability Partners and WhatsApp Groups on PrEP Utilization in Soweto, South Africa. [as part of HIV Prevention]

By: Mr Clinton Moyo, Program officer from The Best Health Solutions

7: A decade of HIV self-testing: Practical lessons learnt from the HIV self-testing programme that can be leveraged into other self-care initiatives [as part of HIV Prevention]

By: Ms Shameema Ismail, Research Operations Manager from Ezintsha, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg

8: Pilot effectiveness - implementation trial (CHOMA) to evaluate whether an evidence-based mental health intervention adapted for PrEP delivery (‘Youth Friendship Bench SA’) could address CMD and PrEP adherence among South African AGYW [as part of HIV Prevention]

By: Ms Lisa Mills, Research from Wits RHI

9: Safety and immunogenicity of a single dose of COVID-19 vaccine: Ad26.CoV2.S, BNT162b2 or SARS-CoV-2 rS-Protein-Nanoparticle in previously vaccinated and unvaccinated adults living with HIV in South Africa [as part of HIV Prevention]

By: Dr Vaneshree Govender, Clinical Research Investigator from The Aurum Institute NPC

10: Exploring experiences of collaborating with traditional healer practitioners (THPs) in South Africa [as part of HIV Prevention]

By: Ms Cathrine Chinyandura, Senior Public Health Analyst from Anova Health Institute

11: Voluntary Medical Male Circumcision and Female Condom Uptake during the COVID-19 Pandemic in Gauteng Province, South Africa [as part of HIV Prevention]

By: Mr Cyril Fonka, Health Economics from Wits School of Public Health

HIV-AIDS, STI, TB & related

12: Measuring PLHIV perceptions of quality of care to identify barriers to access and utilizing HIV services in 15 fast-track cities - the case of City of Johannesburg [as part of HIV Care]

By: Mr Leon Roets, Curriculum and Learning Development Specialist from IAPAC/Unisa

13: What does the case management programme need to provide patient-centered care? [as part of HIV Care]

By: Dr Chipso Mutyambizi, Senior Public Health Analyst from Anova Health Institute

14: ECHO training and mentorship for HIV viral non-suppression: a survey of health care workers in five districts of South Africa. [as part of HIV Care]

By: Ms Christine Njuguna, Public Health Analyst from Anova Health Institute

15: Disseminating U=U improves retention in care and viral suppression: a pilot RCT in South Africa [as part of HIV Care]

By: Mr Jacob Bor, Academic from Health Economics & Epidemiology Research Office, University of Witwatersrand

16: Multiple effects of COVID-19 among South African adolescent Girls and Young Women living with or at risk of HIV [as part of HIV Care]

By: Dr Ongeziwe Taku, Research Associate, PhD in Medical Virology from CAPRISA

17: Experiences of living with HIV and AIDS by discordant couples in Johannesburg, South Africa. [as part of HIV Care]

By: Ms Pontsho Maepa, Social Worker from University of the Witwatersrand

18: The use of incentives to promote linkage to HIV care and viral suppression among HIV self-testers users who obtain a reactive result in Johannesburg, South Africa [as part of HIV Care]

By: Ms Mothepane Phatsoane, Project Manager from Ezintsha, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg

19: Durability of viral suppression among people on HIV treatment in South Africa: a national cohort study [as part of HIV Care]

By: Mr Jacob Bor, Academic from HE2RO/Wits & Boston University

20: Using laboratory CD4 test results (<200cells/ μ l) to identify subdistricts and facilities with advanced HIV disease (AHD) in the Johannesburg Health District (Johannesburg Metro) [as part of HIV Care]

By: Dr Lindi-Marie Coetzee, Principal Medical Scientist from NHLS

21: Lived experiences of people with cryptococcal meningitis: A qualitative-methods study [as part of HIV Care]

By: Mr Neo Legare Neo, Public health from National Institute for Communicable Disease

22: Unraveling the Intersection of HIV and Hepatitis C among Males who Inject Drugs [as part of HIV Care]

By: Mr Mohammed Majam, Director: Medical Technology from Ezintsha, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg

23: What do vulnerable children need? Psychosocial needs and interventions for children living with HIV in Johannesburg, South Africa. [as part of HIV Care]

By: Miss Anele Jiyane, Public Health Analyst from Anova Health Institute

HIV-AIDS, STI, TB & related

24: Characterising day-to-day intimate partner violence perpetration among perinatally-infected and HIV- uninfected adolescent boys in Soweto, South Africa [as part of HIV Care]

By: Miss Phumla Madi, Project Coordinator from Perinatal HIV Research Unit (PHRU)

25: Adopting sustainable innovations for remote access to TB and HIV Care in South Africa [as part of HIV Care]

By: Dr Denise Evans, Principal Researcher from Health Economics and Epidemiology Research Office

26. Simultaneous initiation of isoniazid and rifapentine-based TB preventative therapy and dolutegravir-based antiretroviral in treatment naïve people. (Dolphin TOO Study)

By: Jayajothi Moodley, Programme Manager from Aurum Institute, (Clinical Research Division)

27: An analysis of Tuberculosis (TB) screening, Targeted Universal TB Testing (TUTT) implementation, and TPT (TB Preventive Therapy) initiation for clients enrolled on the CCMDD programme within Johannesburg Health District, in Sub-district D facilities. [as part of TB Care]

By: Ms Thembisile Shabangu, Pharmacist from IHPS

28: Cough peak versus spirometry for the early detection of lung impairment in a cohort of patients receiving treatment for pulmonary TB in Johannesburg, South Africa [as part of TB Care]

By: Dr Denise Evans, Principal Researcher from Health Economics and Epidemiology Research Office

29: Evaluation of self-collected tongue swabs for M. tuberculosis detection in adults using the Xpert MTB/RIF Ultra assay [as part of TB Care]

By: Ms Anura David, Medical Scientist from University of the Witwatersrand

30: Factors associated with unfavourable treatment outcomes of drug-susceptible tuberculosis patients registered in the Johannesburg health district from 2017 to 2018 [as part of TB Care]

By: Mr Choene Edwin Madibogo, Prof Nurse from City of Johannesburg

31: : Simultaneous initiation of isoniazid and rifapentine-based TB preventative therapy and dolutegravir-based antiretroviral in treatment naïve people. (Dolphin TOO Study) [as part of TB Care]

By: Mrs Jayajothi Moodley, Senior Programme Manager from The Aurum Institute

Maternal, Child and Women's Health

1: Experiences of women on the use of Implanon NXT in Gauteng Province, South Africa: a qualitative study [as part of Women]

By: Ms Junior Ntimani, Nursing from Sefako Makgatho Health Science University

2: Factor structure and concurrent validity of the Severity of Violence Against Women Scale in South Africa and Zambia [as part of Women]

By: Ms. Amy Zheng, Doctoral Student from Boston University School of Public Health and Health Economics and Epidemiology Research Office,

3: Experiences and perceptions of pregnant women on the MomConnect programme in Johannesburg [as part of Pregnancy]

By: Ms Nonhlanhla Pitsoane, Nursing from City of Tshwane

4: Participatory Antenatal Care: A South African Context [as part of Pregnancy]

By: Prof Johanna Mathibe-Neke, Academic from University of South Africa

5: Prevalence and associated risk factors of adverse maternal and newborn outcomes in inner-city Johannesburg: a cross-sectional analysis of birth registers [as part of Pregnancy]

By: Ms. Jean le Roux, Data Manager from Wits RHI

6: Congenital abnormalities detected through pregnancy surveillance in Soweto [as part of Pregnancy]

By: Dr Zamakhatshwa Nxumalo, Doctor from Wits VIDA

7: Association between Covid-19 and adverse pregnancy outcomes in South Africa: a time series analysis [as part of Pregnancy]

By: Prof Ziyaad Dangor, Research Director from Wits VIDA

8: Challenges in establishing a Pregnancy Surveillance Program in Soweto [as part of Pregnancy]

By: Mr Bongani Ntimani, Project Manager from Wits VIDA

9: Congenital abnormalities detected through pregnancy surveillance in Soweto [as part of Pregnancy]

By: Dr Zamakhatshwa Nxumalo, Medical Officer from Wits VIDA

10: District Variation of COVID-19 Impact on Maternal, Neonatal and Child Healthcare Service Utilisation, Delivery and Health Outcomes in Gauteng Province, South Africa [as part of Pregnancy]

By: Mr Cyril Fonka, Health Economics from Wits School of Public Health

11: Survey on Factors contributing to late antenatal care [as part of Pregnancy]

By: Dr Siphesihle Mlambo, Family Physician from Department of Health

12: Fasting plasma glucose is a cost-effective alternate method for diagnosing GDM in black African women at high risk. [as part of Pregnancy]

By: Ms Lungile Khambule, Lecturer from University of the Witwatersrand

13: Factors influencing maternal vaccine demand and interventions to increase maternal vaccine demand and uptake in low- and middle-income countries [as part of Pregnancy]

By: Ms Mulalo Mashamba, Social Scientist from Wits Vaccines & Infectious Diseases Analytics (VIDA) Research Unit

Maternal, Child and Women's Health

14: Understanding HIV service preferences of South African women 30-49 years old missing from or linked to care: An exploratory study of Gauteng and Limpopo provinces [as part of Pregnancy]

By: Ms Conny Mongwenyana, Researcher from Health and Economics Epidemiology Research Office

15: Virological suppression at the time of delivery in HIV positive pregnant women on ART at South Rand Hospital [as part of Pregnancy]

By: Ms Jessica Robertson, Student from University of the Witwatersrand

16: Drawing a line between hope and accountability: Midwives' response to a pilot project on psychosocial care [as part of Pregnancy]

By: Prof Johanna Mathibe-Neke, Academic from University of South Africa

17: Reducing Vertical Transmission Rates through Integrated Postnatal Care for Women Living with HIV and their Infants [as part of Pregnancy]

By: Ms Ndinda Makina-Zimalirana, Public Health Analyst from Anova Health Institute

18: Perception and acceptability of point-of-care HIV viral load and early infant HIV testing among postpartum women living with HIV in Johannesburg, South Africa [as part of Pregnancy]

By: Ms Shobna Sawry, Senior Researcher from Wits RHI

19: HIV treatment adherence challenges in postpartum women living with HIV in the OPPTIM Study, Johannesburg, South Africa [as part of Pregnancy]

By: Prof Lee Fairlie, Paediatrician from Wits RHI

20: Risk factors associated with childhood mortality in the Soweto and Thembelihle Health and Demographic Surveillance System from 2018 to 2022 [as part of Child]

By: Dr Takwanisa Machededze, Demographer from Wits Health Consortium (Wits VIDA)

21: Development of Neonatal Nursing Intensive Care Competencies: A Mapping Review [as part of Child]

By: Mrs. Kerry-Ann Singaram Kerry-Ann Singaram, Lecturer from The University Of The Witwatersrand

22: Post-mortem investigations to ascertain causes of death in decedents who are dead on arrival at health facilities in Soweto, South Africa. [as part of Child]

By: Dr Megan Dempster, Medical Doctor from Wits Vida

23: Feasibility and preliminary findings from the PLAY Study: A randomised controlled trial to improve maternal self-efficacy for promoting infant growth and development. [as part of Child]

By: Dr Alessandra Pioreschi, Research Fellow from Developmental Pathways for Health Research Unit, Department of Pediatrics, University of the Witwatersrand.

24: Safety outcomes among infants whose mothers used dapivirine vaginal ring or oral PrEP during pregnancy (MTN- 042/DELIVER) [as part of Child]

By: Prof Lee Fairlie, Paediatrician, Director Maternal and Child Health from Wits RHI

Maternal, Child and Women's Health

25: Genomic characterization of *Klebsiella pneumoniae* causing childhood death in South Africa: an observational study [as part of Child]

By: Dr Courtney Olwagen, Infectious diseases from Wits VIDA

26: Prevalence of Water, Sanitation, and Hygiene related diseases in children under five, living in an informal settlement of Alexandra, South Africa. [as part of Child]

By: Mrs Fundiswa Viwe Gwija, Pharmacist from Dept of Health , Medical Supplies Depot

27: Untargeted high resolution mass spectrometry imaging for the detection of toxins in undetermined or suspected poisoning paediatric deaths [as part of Child]

By: Dr Megan Dempster, Medical Doctor from Wits Vida

28: Screening their children for malnutrition in the household using MUAC empowers mothers [as part of Child]

By: Ms. Sphindile Mapumulo, Researcher from Center for Rural Health, University of KwaZulu Natal

Miscellaneous Dx, incl. CDs, NCDs, Mental Health

1: Prevalence, knowledge, perceptions, and attitude on COVID-19 vaccine uptake amongst adult patients in Lillian Ngoyi community health Centre in Soweto, Johannesburg, South Africa [as part of COVID]

By: Mr Bongani Ntimani, Nurse from University of Johannesburg

2: SARS-CoV-2 seroprevalence in a cohort of individuals from Gauteng and Eastern Cape, 2022 - 2023 [as part of COVID]

By: Ms Caitlyn Slabbert, Medical Scientist from National Institute for Communicable Diseases

3: The YouthCan Study: Investigating perceptions of COVID-19 vaccines among youth in Soweto, South Africa, ÅØ [as part of COVID]

By: Ms Lerato Tsoetsi , Researcher from African Social Sciences Unit of Research and Evaluation

4: A phase 2/3, randomized, double-blind, double-dummy, placebo controlled study to evaluate the safety and efficacy of 2 regimens of orally administered pf 07321332/ritonavir in preventing symptomatic sars-cov-2 infection in adult household contacts of an i [as part of COVID]

By: Dr Luthando Adams, Medical Doctor from Bheki Mlangeni District Hospital

5: Mental Health and Substance Use Impact on Tuberculosis Preventive Therapy Outcomes in People Living with HIV: A Prospective Cohort Study [as part of Mental Health]

By: Ms. Ann Johnson, public health and medicine, MD/PhD student from Yale University/ Guest Student at the Aurum Institute

6: „Úl feel honored to have met CETA team because I saw many changes in my life, Åù Positive experiences of patients living with HIV who received a tailored CETA MH intervention. [as part of Mental Health]

By: Ms Pertunia Manganye, Study coordinator from HERO

7: Mental Health Outcomes of Intimate Partner Violence: Voices and Experiences of African Men in Johannesburg [as part of Mental Health]

By: Dr. Emmanuel Rowlands , Senior Post Doctoral Researcher from Africa Centre for Evidence, University of Johannesburg

8: A questionnaire-based study of burden of chronic disease and access to care in an inner-city population [as part of NCDs]

By: Ms Nkololeng Mashilo, Project Manager from Ezintsha

9: Tobacco use among healthcare professionals and their readiness to implement cessation treatments among patients in Primary Care facilities in Soweto, Johannesburg [as part of NCDs]

By: Dr. Ann Alagidede, medical doctor from University of Witwatersrand

10: Hypertension treatment practices and outcomes at health community centres in urban Soweto, South Africa [as part of NCDs]

By: Mr Kudakwashe Nyamupangedengu, PhD student from Sydney Brenner Institute for Molecular Biosciences

11: Experiences of hypertensive patients in primary health care facilities in the City of Johannesburg on decanting of treatment to the private sector. [as part of NCDs]

By: Ms Subashni Naidoo, Health: Nursing from City of Johannesburg: Region G

Miscellaneous Dx, incl. CDs, NCDs, Mental Health

12: Diabetic foot complications at primary healthcare centres [as part of NCDs]

By: Ms Yaasirah Choonara, Lecturer from University of Johannesburg

13: Diabetic foot complications in primary healthcare clinics in Gauteng [as part of NCDs]

By: Ms Masego Nkomo, Podiatrist from University of Johannesburg

14: Spatial distribution of notifiable malaria cases in the City of Johannesburg: 2015-2019 [as part of Misc]

By: Mr Mnqweno Funcuza, Environmental Health Practitioner from City of Johannesburg Health Department: Environmental health

15: Integrated Hepatitis C Virus Self-Testing and HIV Services Among People who Inject and Use Drugs in Johannesburg: Operational Insights and Co-Infection Challenges [as part of Misc]

By: Mr MohammedMajam, Researcher from Ezintsha, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg

16: Invasive pneumococcal disease surveillance in Gauteng Province, South Africa, 2018-2022. [as part of Misc]

By: Ms Mokupi Manaka, Nursing from National Institute for Communicable Diseases

17: Family caregivers,Ã of cancer patients,Ã understanding of the disease and their coping strategies. [as part of Misc]

By: Dr Felistus Ndamba, Lecturer from University of Pretoria

18: Improving Cancer Awareness and Knowledge in Johannesburg and iLembe Districts through a Tailored Community-Based Educational Intervention [as part of Misc]

By: Dr Hlolisile Chiya, Professional Nurse from University of KwaZulu-Natal

19: The Barriers and Facilitators Experienced by Primary Caregivers when Implementing Occupational Therapy Home Programmes within a Primary Healthcare Setting. [as part of Misc]

By: Ms Ella Topham, Occupational Therapist from University of the Witwatersrand

20: Development of a programme for nurses to manage survivors of sexual and gender-based violence in Primary Health care settings [as part of Misc]

By: Mrs Adele Greasley, Registered Nurse/School counsellor from Wits Nursing Department

21: A systemic approach in rendering post-rape services to adult female survivors within the South African criminal justice system [as part of Misc]

By: Dr Nigel Bradely Bougard, Senior Lecturer Criminology from University of South Africa

22: Investigating the Perceptions of Speech-Language Therapists working in the Public Health and Education Sectors, about the Services they provide to Children with Cerebral Palsy in the Greater Johannesburg Region, from Birth to Six Years [as part of Misc]

By: Mrs Martha Lydall, Speech-Language Therapist & Audiologist from Forest Town School

Miscellaneous Dx, incl. CDs, NCDs, Mental Health

23: GERMS-SA laboratory surveillance isolate-submission rates for vaccine preventable organisms (*Haemophilus influenzae*, *Streptococcus pneumoniae* and *Streptococcus agalactiae*), City of Johannesburg district, 2019-2022. [as part of Misc]

By: Ms Tiisetso Lebaka, Project manager from National Institute for Communicable Diseases (NICD)

24: A Three-year Audit of Dental Services at Primary Health Care Facilities in Gauteng, South Africa: 2017 to 2019 [as part of Misc]

By: Prof Ahmed Bhayat, Community Dentistry specialist from University of Pretoria

25: Role of Podiatry in Public Health Care [as part of Misc]

By: Ms Tidimalo Khalo, Podiatrist from private

26: Recommendations to close the gap in organ donation: experienced by nurses caring for organ donors at a tertiary hospital in South Africa [as part of Misc]

By: Mrs. Anja Meyer, Nursing from Gauteng Health CMJAH

PHC Systems, and Miscellaneous

1: Primary Health Care Nurses, "Opinions on the NHI Implementation in Soweto Health Facilities [as part of NHI]

By: Mrs Vangile Jacobeth Khasana, Professional Nurse (Lecturer) from Chris Hani Baragwanath Campus

2: Knowledge, attitude and perception of private service providers regarding the National Health Insurance implementation in Gauteng Province, Johannesburg District. [as part of NHI]

By: Ms Nelly Mokwele, Pharmacist from Johannesburg Health District

3: Changing organisation of private primary health care services in South Africa: A qualitative study from Soweto [as part of NHI]

By: Dr Kemi Babalola, Researcher from University of the Witwatersrand, Johannesburg

4: Comparing the quality of primary care providers in the City of Johannesburg. A standardised patient audit [as part of NHI]

By: Dr. Duane Blaauw, Researcher from Centre for Health Policy, University of the Witwatersrand

5: A model to facilitate radiation protection among radiographers [as part of QA]

By: Dr Shantel Lewis , Radiography educator from University of Johannesburg

6: LGBTQ+ persons' experiences with culturally competent caring practices when accessing primary health care facilities in Gauteng, South Africa [as part of QA]

By: Prof George Johannes and Charlene Nkabinde-Thamae and Downing , PHD CANDIDATE (SENIOR MANAGER PRIMARY HEALTHCARE SERVICES. from University of Johannesburg

7: Support programme for healthcare professionals involved in adverse events in public hospitals in Gauteng [as part of QA]

By: Dr. Elizabeth NKOSI, Lecturer from University of the Witwatersrand

8: Guidelines for disclosure of TM use to Allopathic Medicine Practitioners (AMPs) by patients who use both traditional medicine and allopathic medicine: Perspectives of AMPs in Gauteng, South Africa [as part of QA]

By: Dr Lindiwe Gumede , Lecturer from University of Johannesburg

9: The relationship between sense of coherence , work engagement and counterproductive work behavior [as part of HR]

By: Ms Tsakane Lavish Mageza, Researcher from Individual

10: Validated Guidelines to Manage Burnout and Stress of Dietitians and Nutritionists in the Workplace. [as part of HR]

By: Prof Charlene Downing and Mr George Johannes Nkabinde-Thamae, Dietitian from Division of Human Nutrition, Department of Global Health, Faculty of Medicine and Health Sciences, Stellenbosch University, South Africa

11: Relationship between the nurse practice environment, job outcomes and standards of care and that these are mediated by workload and professional support [as part of HR]

By: Dr Prudence Ditlopo, Public Health Academic from Centre for Health Policy, University of the Witwatersrand

PHC Systems, and Miscellaneous

12: Self-care behaviours and practices of professional nurses working in primary healthcare clinics [as part of HR]

By: Mr Mukelani Muhlare, Snr Occupational Health Nurse Practitioner from City of Johannesburg

13: Awareness of human rights of patients by public health practitioners in South Africa [as part of HR]

By: Ms Cebile Dlamini, Consultant on Business and Human Rights from n/a

14: Factors contributing to attrition of nurse educators at a Gauteng Public Nursing Education Institution. [as part of HR]

By: Mrs Shirinda Daphney Mihloti, Lecturer from Chris Hani Baragwanath Campus

15: Nursing colleges in higher education: Determinants of organisational readiness for change [as part of HR]

By: Dr Patricia Yeukai Mudzi, Nurse from University of Witwatersrand

16: Perspectives of healthcare workers on the novel electronic technology of wearable tags [as part of IT]

By: Dr Denise Evans, Principal Researcher from Health Economics and Epidemiology Research Office

17: Exploring the perspectives of healthcare workers on their use of mobile phone messaging applications (apps) at work: A qualitative study in South Africa [as part of IT]

By: Prof Janan Dietrich, Associate Professor from Perinatal HIV Research Unit

18: Investigating healthcare worker's use of mobile phone messaging applications (apps) for their daily work in primary health care [as part of IT]

By: Professor Janan Dietrich, Director from Perinatal HIV Research Unit

19: Digital Health: A Live Healthcare Console for Public Health in Gauteng, South Africa [as part of IT]

By: Mr Wesley Moonsamy, Digital Health advisor from University of South Africa (student)

20: Patients' Attitude and Experiences towards Automated Pharmacy Dispensing Units in Johannesburg, South Africa [as part of IT]

By: Ms Hethel Chouhan, Pharmacist from Jhb Health District (Hillbrow Regional Pharmacy)

21: The Knowledge, Attitudes and Perceptions of Healthcare Professionals at Bheki Mlangeni District Hospital, Gauteng Province South Africa, regarding Climate Change. [as part of Other]

By: Mr Moloisi Mmatlou, Environmental Health from Bheki Mlangeni District Hospital

22: Assessing losses across the Pathology value chain from the capture in health facility register to review in the laboratory in the City of Johannesburg, South Africa [as part of Other]

By: Mr. Philani Buthelezi, Medical Scientist from Gauteng Department of Health

23: The perceived impact of the Expanded Public Works Programme as an instrument for poverty alleviation and unemployment reduction within Johannesburg Health District. [as part of Other]

By: Mr Thinandavha Raliavhegwa, Community Liaison Officer from Gauteng Department of Health (Johannesburg Health District)

PHC Systems, and Miscellaneous

24: The radiography manager,Äôs perceptions of management skills and competencies: public health institutions in Gauteng, South Africa (SA) ,Äì 2023 [as part of Other]

By: Mr Libe Joseph Mopeli, Radiographer from Gauteng Department of Health/University of Johannesburg

25: Knowledge assessment of computed tomography scanning parameters amongst diagnostic radiography, nuclear medicine and radiation therapy radiographers in Gauteng Province. [as part of Other]

By: Mr. Moswatse J Thobakgale, Lecturer from Sefako Makgatho Health Sciences University
